It's honestly exciting to see a new content update, especially in relation to a previous message about where the game goes from here.. Even BioWare's Anthem is getting into the Halloween spirit with a new event called Season of the Skulls.

With so much unusual radio silence from the team paired with a nasty reception due to bugs and different perspectives on the game's base story, many have wondered if BioWare would continue to support the adventure given that it meant to be a chaptered tale.
